🛠️ Maintain Your Ads

Ads and assets

Name	Enable (Yes, No, Depends)	Google's Definition	Recommendation
Use optimized ad rotation	Yes	Automatically show your best ads at auction time.	There are very few cases not use optimized ad rotation. We generally always enable this at the Campaign level so havin this enabled is fine.
Add responsive search ads	No	Get more conversions at a similar or better ROI by showing more relevant ads to potential customers. Headline and description line assets will come from your existing content including your ad's final url or assets in the same ad group.	We never recommend allowing Google to creat ads for you. Most of the time they are terrible. Ke this turned off.
Improve response search ads	No	Get more clicks on your responsive search ads by improving your headlines and descriptions. Headline and description line assets will come from your existing content including your ad's final url or assets in the same ad group.	We never recommend allowing Google to creat ads for you and in this ca Google would be creatin ad assets (headlines & descriptions) to existing ads. Keep this turned off

COUNT 3

Keywords & targeting

Name	Enable (Yes, No, Depends)	Google's Definition	Recommendation
Expand your reach with Google search partners	Depends	Reach additional customers on partner sites.	Search partners performance will vary p account and usually pe campaign. We recomm managing this yourself you are not going to be proactively managing y account then recomme keeping this off.
Remove redundant keywords	No	Make your account easier to manage by removing redundant keywords.	You don't want Google controlling your keywo We have seen Google pause important keywo with this setting enable We never recommend t being enabled.
Remove non-serving keywords	No	Make your account easier to manage by removing non-serving keywords.	You don't want Google controlling your keywo We don't recommend tl being enabled.
Remove conflicting negative keywords	No	People didn't see your ads because of conflicting negative keywords. Remove them so your ads can show.	You don't want Google controlling your keywo We don't recommend tl being enabled.
Use optimized targeting	No	Get more conversions at a similar cost per conversion.	If you have this setting enabled Google will automatically apply it t your Remarketing campaigns which will n longer just target your actual Remarketing audience pools you hav set. We never recomme this setting being enab

Measurement

Name	Enable (Yes, No, Depends)	Google's Definition	Recommendation
Upgrade your conversion tracking	Depends	Give credit for conversions across multiple ad interactions with data-driven attribution.	We normally recommer Data Driven Attribution anyways, so generally w are ok with this setting enabled. However, there are times you would wa to have other attributio models enabled. *Goog getting rid of First Click, Linear, Time Decay, and Position Based attributi models.

📈 Grow Your Business

Keywords & targeting

Name	Enable (Yes, No, Depends)	Google's Definition	Recommendation
Add new keywords	No	Show your ads more often to people searching for what your business offers.	You don't want Google controlling your keywo We don't recommend being enabled.
Add broad match keywords	No	Get more conversions at a similar or better ROI by adding broad match versions of your existing keywords.	You don't want Google controlling your keywo Broad match is great t when you have Campa that have consistently hitting your goals and utilizing Smart Bidding However, you do not w Google auto-applying match keywords. We h seen too many times v Google gets very gree applies irrelevant broa terms causing massive spend spikes and low performance. We don' recommend this being enabled.
Use Display Expansion	No	Get more conversions at a similar CPA using unspent budget with the revamped Google Display Network Expansion feature.	Never. We never recon adding Display to Sear campaigns. If you war run Display then run a specific Display only Campaign. Mixing the never makes sense sir behavior between Sea and Display is vastly different. Never use th setting.

Bidding

Name	Enable (Yes, No, Depends)	Google's Definition	Recommendation
Bid more efficiently with Target Impression share	No	Optimize for your ads' visibility with a fully automated bid strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Bid more efficiently with Maximize clicks	No	Get more clicks at a similar cost with a fully automated bid strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Bid more efficiently with Maximize conversions	No	Get more conversions at a similar cost with a fully automated bid strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Bid more efficiently with Maximize conversion value	No	Get more conversion value at a similar cost with a value-based bidding strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Bid more efficiently with Maximize conversions using a target CPA	No	Get more conversions at a lower or similar CPA with a fully automated bid strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Bid more efficiently with Maximize conversion value with a target ROAS	No	Get more conversion value at a similar ROAS with a value-based bidding strategy.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Set a target CPA	No	Get more conversions at a similar CPA by setting a target.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
Set a target ROAS	No	Get more conversion value at a similar ROAS by setting a target.	You never want Google controlling your biddin setting should just be c “Give Google More Mor
